Designed to protect your home.

Enjoy peace of mind knowing that Cedar Ridge siding will look gorgeous years after it's installed, and its high-performance insulation technology will protect your home for life.

PERFORMANCE FEATURES

- *Maintenance free - no painting or scraping*
- *Provides the best insulating value of any cladding - better than wood, fiber cement, engineered wood or traditional vinyl siding*
- *Built with TXL™ Lamination Technology for superior bonding*
- *Features the Smart Track™ system with moisture management ridges, which prevents water from being trapped behind the siding*
- *Highly resistant to impact*
- *Wind resistant up to 160mph, depending on the profile*
- *Reduces noise by up to 45%*
- *Life of the Home Limited Warranty*

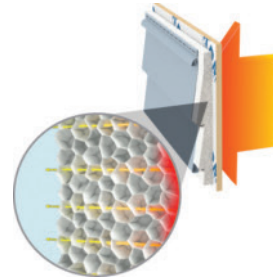

What makes Neopor® different?

Cedar Ridge is the only insulated siding that uses Neopor®, a graphite enhanced EPS foam that increases the R-value* — or measure of thermal resistance — by up to 19% versus traditional insulation.

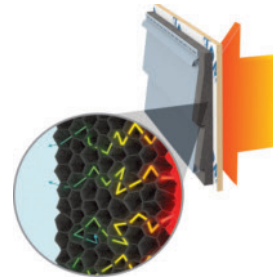

How traditional siding works:

- Made of small air pockets
- Trapped air is a poor conductor of heat
- Heat moving from warm to cold is slowed by the pockets, making it energy efficient

How Neopor works:

- High-purity graphite gives it a reflective property
- Reflects radiant heat over and over as it moves through the insulation
- Significantly slows down the heat transfer

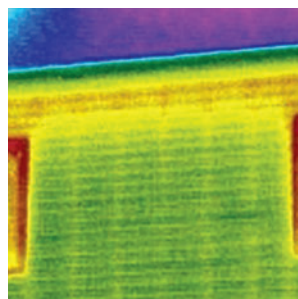

*R-value varies by profile.

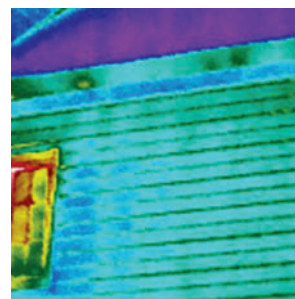

® = registered trademark of BASF SE

Cedar Ridge prevents thermal bridging.

Heat and energy escape through the studs of your home's walls; this is known as thermal bridging. Only insulated vinyl siding reduces thermal bridging.

Studs make up 25% of your home's walls. The yellow lines show how heat transfers through the studs.

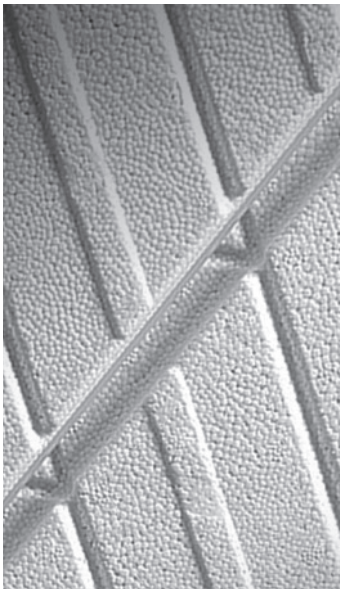

Cedar Ridge Siding reduces the amount of heat and energy you lose through studs. And that's as beautiful as the siding itself.

The creativity is in the details.

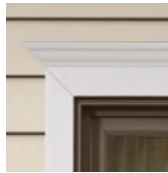

Showcase your home's creative new side with our naturally beautiful and durable window, door and trim options. Available in a wide selection of accents, all of our accessories are designed to fit seamlessly with any Cedar Ridge style you choose.

CEDAR RIDGE TRIM & ACCESSORIES FEATURES

- *Natural, smooth look and feel*
- *No painting or scraping - virtually maintenance free*
- *Helps eliminate heat and cold loss around windows and doors*
- *Available in colors to match or complement siding beautifully*
- *Life of the Home Limited Warranty*
